

RMC-DI  
DI - Suppressor for RMC contactors | 6 - 250 V DC

| <b>Control circuit</b>                      |              |
|---------------------------------------------|--------------|
| Operating voltage range                     | 6 - 250 V DC |
| <b>General data</b>                         |              |
| Dimensions                                  | see fig. 1   |
| Weight                                      | 16 g         |
| <b>Housing and environmental conditions</b> |              |
| Color                                       |              |
| <b>Product references</b>                   |              |
| Description                                 | Type         |
| DI – Suppressor Diode 6 – 250 V             | RMC-DI       |
